

RGR12 & RGA12 Series

Features	Benefits
American made	American made means better quality & parts availability. Most tillers are imported.
Tractor horsepower range 1242 & 1250 1258 & 1266 1274 1282	18-60 hp (13-45 kW) 23-60 hp (17-45 kW) 30-60 hp (22-45 kW) 35-60 hp (26-45 kW)
Reverse tilling action (RGR only)	Reverse action 'sucks' tiller into ground, does not walk on top of hard ground like forward rotation tillers can.
3 Year limited gearbox warranty	3 Years on housings, seals, bearings. Shows our confidence in the product.
Working widths 42", 50", 58", 66", 74", & 82" (107, 127, 147, 168, 188, & 208 cm)	A wide range of widths are available to meet specific customer needs.
7" (18 cm) Tilling depth	For deep soil penetration.
Formed plate steel upper hitch	Plate steel is stronger than flat bar type hitch.
Fits Land Pride Quick Hitch	Allows for quick and easy one person hook-up.
Park stand	Allows for easy hook-up and storage.
Adjustable skid shoes	Control depth with seven adjustments.
Formed and reinforced rear deflector	Keeps dirt in and leaves a level finish. Forming gives deflector additional strength. Adjustable deflector allows for various finish results.
Front deflector (RGR only)	Front deflector is flexible to take the beating from rocks or debris.
Bolt in rotor	Rotor removes and replaces easier for servicing.
17" (43 cm) Rotor swing diameter	For deep tilling and turns the soil over faster.
Six "C" shaped, heat-treated tines per flange	"C" Shaped tines require less horsepower to move through the ground. Six tines per flange make for a better seedbed in less time than four tines.
Double lip seal on rotor bearing	Double lip seal helps keep the dirt out and the grease in.
Fully shielded slip-clutch driveline	Protects gearbox and rotor shaft upon hitting obstructions. Slip-clutch saves having to replace shear-pins.
Gear drive enclosed in oil bath	Gear drive requires less maintenance than roller chain drive. Oil bath keeps wear to a minimum.
Stamped gear case cover	Stamped forming gives the chain cover strength.
Optional BX driveline	This driveline will fit B and BX Kubota tractors without cutting it to fit. Not quick hitch adaptable for B & BX Kubota tractors.
