

PFL & PFLE Series

Features	Benefits
Skid/loader mounting plate and Euro style hitch plates	The Plate Mounted Pallet Fork can be attached to a wide variety of machines. Note: All PFL series are offered with skid/loader mounting plates. The PFLE Series offer the optional Euro style hitch plates.
Tall rear guard	Keep loads from slipping backwards.
Attaches to power equipment easily	Uses skid/loader mounting plate design or Euro style hitch design for quick and easy attachment.
Easy adjustable Forks	Forks slide easily on carrying bars from one position to another. Simply rotate locking handles up and slide forks to their new positions. Rotate locking handles down to secure forks in their new position.
Five capacities & three fork lengths 2,100 lbs. with 42" forks 3,000 lbs. with 42" & 48" forks 4,500 lbs. with 48" forks 5,500 lbs. with 48" & 60" forks 6,400 lbs. with 48" & 60" forks	Meets most needs for low cost fork lift handling on customer owned skid steer loader with skid steer mount or front tractor loaders with either a skid steer mount or Euro hitch.
