

**TC25 Series Tree Carrier**

<b>Features</b>	<b>Benefits</b>
<b>Universal quick attach hitch</b>	Fits a wide variety of skid steer loaders and compact track loaders rated up to 100 hp. Makes the Tree Carrier quick and easy to attach.
<b>Available in 36", 42", &amp; 48" widths</b>	Purchaser can choose a size and price range that fits his or her needs.
<b>1/4" AR400 continuous welded scoop construction</b>	AR400 steel resists bending and wear. Continuous welds makes it extra strong.
<b>Beveled front scoop edge</b>	Scoop is easier to drive in the ground.
<b>Reinforced scoop with 5/16" mild steel gusset plates</b>	Adds strength and rigidity to the Tree Carrier.
<b>Hook points</b>	Provides an easy way to secure the tree in the bucket to prevent the tree from falling over while transporting it.
<b>Two bolt-on cast steel skid steps</b>	Makes entering and exiting the power machine safer.
<b>Drain slot at the back</b>	Allows rain water to drain from the scoop.
