

SGS15 Series

Features	Benefits
Attaches to power equipment easily	Uses Skid Steer Quick Hitch design for quick and easy attachment.
Designed to fit Skid Steer Loaders and Front Tractor Loaders	The quick attach plate mounted grapple can be attached to a wide variety of machines. Note: Tractor Loaders must be fitted with a Skid Steer universal quick attach mounting system.
Designed to protect hydraulic hoses	Hydraulic hoses routed to prevent pinching.
Greasable hardened bushings at all pivot locations	Bushings can be replaced if needed.
1 1/4" Pivot pins	Large diameter pins for extra strength.
Two cylinder independent grapples	Able to secure uneven loads
Grade 80 teeth material	More than double the strength of mild steel.
Front gusseted tines	Strengthens tine tips.
Open bottom and back	Allows dirt to fall through tines.
Optional cylinder shields	Protects cylinders and fittings.
