SNOW TOOLS

Make quick work of winter's biggest jobs.

Land Pride's SBD35 Snow Blowers feature an adjustable, telescopic Cat. 2 and Cat. 3 hitch to allow for easy hook up. 1/4" Side plates with reinforced gussets wrap on the main housing to create an exceptionally strong blower.

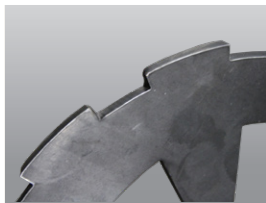

Dual 16" diameter augers feed the SBD35's massive 34" impeller to help the blower dive into the biggest piles without bogging down. The Augers are chain driven with a shear bolt on the sprocket drive shaft to protect the gearbox and driveline from damage.

Both models have a telescoping Cat. 2 or Cat. 3 reinforced hitch for use with or without a Quick Hitch.

The shear-bolt on sprocket drive shaft protects gearbox and driveline from damage.

Aggressive augers manufactured from 3/8" plate steel chew through snow and ice.

Hydraulically controlled chute is gear driven for smooth efficient operation.
